THE STATE CANVASS.

Lere is no talk about him at Saratoga, but in Utica they are under the impression that Congressman Scott Lord is a candidate for the nomination for Governor.

If the "machine" controlled the Republican Convention last week, what is controlling the Democratic gathering to-day ! What is it that has hold of the nose of every delegate !

One thing about the Liberal Republican element is evident. The few members of the organization who are for Tilden are making a great deal of noise. The vast majority, who are for Hayes, are very quiet.

The Hon. Sherman S. Rogers, the Republican nominee for Lieutenant-Governor, was serenaded by this friends in Buffalo last Saturday evening. He made a modest speech in response, ignoring political questions, and merely saying that he presumed he was indebted for the honor offered him to the good opinion and favorable consideration of his neighbors and fellow-citizens among whom he had lived, boy and man, a quarter of a century. If anything he had done or anything he was merited the good opinion of his countrymen, he hoped he should do nothing in the future to forfeit this confidence

The Utica Herald expresses a very general sentiment when it says of the Democratic Convention : "There is no general movement in the party, such as the one which swept through the Republican masses, demanding the nomination of Morgan or Evarts. The covention will register no will or wish of the people. It will respond to no popular demand. It will possess no individuality or purpose of its own. It is under the chumb of a dictator too selfish to think of the people, too egotistic to appreciate their wishes; but bold and able enough to have subjected his party to 'the machine,' of which he, and he alone, holds the lever."

The water in the upper Hudson is lower than it has been in many years.

The lady who has the smallest feet in America is the wite of a cousin of Sing Lee, proprietor of a San Francisco wash-house. Her foot is 2% inches of a San Francisco wash-house. The hot and a long, 2 inches broad in the middle, and 1 inch at the foes. She wears white satin stockings and blue satin allopers embroidered in silver. A correspondent of The Louisville Courier-Journal carries a tape measure, and has had her foot in his lap.

On the semi-centennial anniversary of the Willey disaster at Crawford Noteh, White Mountains (Aug. 28), the orator of the occasion was moved to say "Had the Pilgrims landed on the banks of the Mississippi these mountain passes would never have been dotted with shurches and school-houses." The Pilgrims would have built churches and school-houses wherever they landed. The germs of church and school were in their souls and not in the air they breathed.

"A day in Paris is better than half a year In stupid America." There is a good deal of such talk smong underdone and overdone Americans who have traveled-ay, traveled. A prosaic Englishman, some what lacking in imagination, recently enjoyed the in-satimable privilege of a day in Paris. What did he do ! He sat in front of one of Sir Richard Wallace's free foun-tains from 8 in the morning to 7 in the evening and pounted the number of persons who came for water. There were waiters with wine bottles, soldlers with cans, women with jugs, bonnes with children, et alii: total, 2.738.

A dastardly attempt was made on Sunday morning to wreck a train on the Rensselaer and Saratoga Railroad. The engineer had a sharp eye and stopped the train before the obstructions were reached. Two ties and several rails had been laid across the track by tramps. The Social Science Convention which is soon to meet at Saratoga will undoubtedly drag the tramp into the discussions. How would it do to charter some of the pld hulks in Buffaio harbor, freight them with tramps who have tried to wreek railroad trains, and cut them adrift in the rapids above Nisgara Falis! One of the first teamboats that Commodore Vanderbit built went over the Falis very nicely during the Patriot War. A vessel properly ballasted with tramps caught at arson and murder would go over with a very pretty curve—there is no doubt about it. meet at Saratoga will undoubtedly drag the tramp intelligencesions. A young farmer became enamored of a wood-chopper's daughter in the bottoms of Ray, Mo., and the happy day was named. All the young people of the neighborhood gathered at the wedding feast 10 days ago. Suddenly there was great scandal. A colored cler gyman, book in hand, took his place in the center of the coom to unite the young couple in the holy bonds. The coom to unite the young couple in the holy bonds. The neighbors expostilated. Why had "that nigger" been railed in ! The bridescroom retorted that he had a right to employ whom he pleased and the bride thought so too. The despised minister proceeded with the ceremony with all the dignity he could muster. But the community was nutraged. Its sense of propriety was dreadfully shocked. Sequel: At midnight a band of white gentlemen visited the sequestered cabin, dragged the bridegroom out of ped and flogged him merchessly with hickory withes until he fell on the ground bleeding and insensible. Society breathes more freely now in Lexington. It has established the everlasting principle that a "nigger" has a black skin, and a white man has a white—liver, possibly.

The New Century for Women properly resents correspondents as the pests of journalism. It says: "It Is not sex that marks the dividing line between the good and bad journalist, but high principle and fine breeding. To repeat private conversations; to peep through erev-Sees and listen at keyholes; to blazon abroad family matters which do not concern the public; to retail twaddle and small talk about the dress and manners of twaddle and small talk about the dress and manners of men and women who are placed by accident in conspicuous positions; to indulge in jests and stories whose point is an indelicate innuendo, or dippancy that will wound some one, is impossible to genti-men, and equally so to ladies." The original Jenkins was undoubtedly a man, and he has many sons as well as a large family of daughters. In England public affairs are discussed in the parlor and diming-room as well as in the club-house and smoking-room; women know what is going on in Bervis, in Parliament, and even in the law courts. American women as a rule know little and care less about public affairs, and naturally when they write for the newspapers run to goessip and dress-materials. Happly there are exceptions. Some of the best work in American journalism is done by intelligent, conscientious, and nable women. Place aux dames!

Chinese elopements are well managed. None but the lazy deserve the fair; there is neither ladder nor Arellis to be scaled; and the old gentleman is easily per-auaded that whatever is, is right. There was Ho, the flaziest wight of Hangehow, who lived by odd jobs, and mover could get regular employment. One night, while he was drinking tea in a wayside inn, he boasted that he would never do another day's work unless he could find a rich employer with pretty daughters. An old screw named Tsiang, who overheard the remark, was so chraced by it that he engaged all the laborers who were present except ho, and refused to give him even a night's lodging. Poor Ho went to sleep in Tsiang's back-yard, and very mournful was be. Suddenly a great bundle of klothes was thrown out of a window. Thinking there were thieves in the house, and not being in a mood to protect the farmer's household, he put the bundle on his back and trudged down the road with it. Soon he heard steps benind him. The inturiated farmer' Not so. It was only a pretty girl. She joined him and walked by his side without saying a word or looking up at him. It was not the young cousin who had wooed her to pack up her clothes and meet him at midnight. It was only poor, any Ho. "Well, well," she said; "there is no help for it. We must get married as soon as possible." Married they were; the old gentleman behaved nicely; dowry, \$300,000 cash. would never do another day's work unless he could find

It is a curious incident connected with Blue Jeans Williams's canvass as Democratic candidate for Governor of Indians, that the Republican papers publish his speeches in full, while the Democratic organs fight shy of them.—[Boston Journal (Rep.)

Any one wanting a photograph of Uncle Camuel, a sample of his handwriting, or a lock of his hair, can obtain it by addressing a note to No. 59. Everything can be had there, in fact, relating to Mr. Tilden but a fac simile of his income return after the year 1862.—[Cincinnati Commercial (Ind.)

Gov. Hayes may be the champion of hard money but his record does not show it. The Republican party has held the reins of government for 16 years, and has proved unfaithful to every trust and to every duty. This is the condition of things to-day, and yet, instead of meeting the issue squarely, the politicians and the organs are seeking to divert public attention by hatching up all saanner of absurd lies against the personal character of Samuel J. Tilden.—[Utica Observer (Dem.)

The truth is, Democracy hung its harp on the willow when it nominated Tilden and Hendricks. It was discovered when too late to mend the matter that the party so notorious for its mistakes had made the greatest blunder of the series, and it accordingly went into the canvass hopeless, heartless, with principles hartered away for a poor mess of pottage, and defeat insured before a gun was fired.—[Troy Times (Rep.)]

A special dispatch to The Dally Telegraph from Vienna says: "The Great Powers are constantly interchanging telegrams concerning the proposed mediation. A general agreement has been reached touching the principal features of the policy to be adopted, but the details are unsettled. Germany is the most backward of the Powers. It is believed that no great difficulty will be experienced in determining the steps to be taken, but

several days will probably elapse before the Powers submit their proposals to the Porte." The Pall Mall Gazette's Berlin special dispatch says: Austria will be invited to again take the initiative in submitting mediatory proposals to Turkey and Servia. The negotiations commenced by the guaranteeing Powers are for the present restricted exclusively to obtaining suspension of hostilities. Great divergencies of opinion are feared when details are discussed, and a conference is considered the only means of adjusting them."

MONTENEGRO STILL DEFIANT. LONDON, Wednesday, Aug. 30, 1876. The Standard's Vienna dispatch says: "It is sserted that Montenegro did not intend to join Servia in sning for mediation, and did not agree to the course taken by Prince Milan; but Prince Nicholas has informed that he (Milan) need consider himself no longer bound to keep the agreement made at the beginning of the war-that neither should separately enter on negotiations for peace."

THE POWERS INTERFERING ACTIVELY.

The Daily News's special from Belgrade says: The diplomatic agents have handed to Premier Ristics, joint note from their respective governments, in which the European Powers declare that they take the subject of mediation into their own hands, and have instructed heir embassadors how to proceed to stop hostilities. The Powers are endeavoring to hold Servia to its action, while the war party is trying to temporize to make better terms.

A Vienna special to The Daily News says:

A council of ministers has been held in Constantinople to consider the peace proposals of which outlines have been given to the Grand Vizier by the Powers separately. Russia stennously opposed a condition that Servia should first sue directly for peace, and the Porte has abandoned its demand to that effect.

COMMODORE VANDERBILT'S CONDITION.

HE SUFFERS A SLIGHT RELAPSE, BUT IS RECOVERING FROM IT.

Commodore Vanderbilt suffered a slight re lapse yesterday, not being so well as during Sunday and Monday of this week. His physicians say that they think this is owing tolover exertion on his part, as he had been unusually comfortable and animated on those days, conversing much more than usual, and exerting his strength to a greater extent than formerly. At 10 o'clock last evening he was feeling somewhat better, and it was thought that he would experience no further serious effects from his over exertion.

A SWINDLE OF DEMOCRATIC DAYS. ONE OF THE JOBS OF A CORRUPT DECADE-\$3,000,000 STOLEN IN THE REMOVAL OF THE CHEROKEES.

[BY TELEGRAPH TO THE TRIBUNE.] Washington, Aug. 29 .- An examination by the Indian office of the questions pending between North Carolina and the Western Cherokees has led to the unearthing of a Democratic swindle extending through three Administrations, and amounting to over \$3,000,000. The money stolen was appropriated by Congress at various times in connection with the removal of the Cherokees from Northern Georgia and vicinity to the Indian Territory. A good portion of the money appropriated under the treaty of removal went into the hands of those in the Democratic Ring which managed the affair, and which through the Administrations of Presidents Polk, Pierce, and Buchanan continued to press claims, present bills, and secure appropriations for expenses incurred in the Where the actual cost of removal in many cases was only \$20 per head from \$150 to \$200 was charged, and in the bills for removals fictitious numbers of Indians were submitted and allowed. The investigation thus far has involved a number of Democratic politicians of the Administrations named, and has shown that the money stolen outright was not less than \$3,000,000.

With the atmosphere in a condition of semi-saturation and pressure at or above the mean, as a whole, and a gentle wind from the southern quadrant, the outlook for immediate change from dry to wet weather is not flattering. LOCAL WEATHER OBSERVATIONS To the Editor of The Tribune.

SIR: I wish you would spare us the local observations and predictions of the weather, and give us instead the Government report in full. Both organizations met at 10 to-night to ratify the action of the conference committees. This was done without any fresh difference arising, and the union is now complete. Members of both organizations seem glad to find that peace has been concluded at last, and the convention breathes freer at being relieved of the unpleasant duty of passing upon the quarrel. This removes one great cause of expected trouble, and insures the completion of the work of the convention in one day. John Kelly's moderation is the subject of general comment as well as his skill in yielding when he saw that the convention would probably compel him to make more of a surrender than he has finally made and thus keeping his hold on the organization. There are both Tammany and Anti-Tammany men who are dissatisfied at the mutual concession, but the former are generally glad that the breach has been healed. The latter are generally pleased with the social recognition, and outside of New-York City there is universal satisfaction with

[BY TELEGRAPH TO THE TRIBUNE.]
ALBANY, Aug. 29.—The Governor discovered to-day that A. S. Hewitt was ineligible for the position of either Governor or Lieutenant-Governor by reason of not having resided within the State for the last five years. He has resided and voted in New-Jersey up to 1874, when he ran fer Congress. The Governor, on discovering the clause of the Constitution in reference to the matter, Article 4 Section 2 admitted that Mr. Hewitt must be considered out of the field. Chief-Justice Church is still here, and remains positively opposed to accepting the nomination, believing that there are many men in the State whose names would be stronger than his own.

STARTING FOR SARATOGA. THE FEELING AMONG THE DELEGATES AS THEY LEFT

THE CITY FOR THE CONVENTION-READINESS TO ACCEPT GOV. TILDEN'S CHOICE.

Many prominent Tammany delegates and politicians departed for Saratoga on the 9 o'clock trainyesterday morning. The Auti-Tammany organization was so poorly represented that if more than two or three members were present, they were lost in the multitude going to support John Kelly. The Tammany delegates excused their hearty fraternization with these lone delegates of Irving Hall, on the ground that they were "good fellows," suggesting at the same time the inference that some of the same political school were not. The politicians numbered 70 or 75, including Augustus Schell, Edward Cooper, Col. Decourcy, Owen Murphy, Thos. O'Callaghan, Henry A. Gumbleton, Robert Cushing, Aidermen Gross, Cole, Guntzer, and Shiels: Coroner Eickoff, John Fox, Senator Jacobs, Joseph J. O'Donohue, James Hayes, Denis Burns, ex-Judge Birdsall, John A. Harnett, Thomas Dunlop, Julius Dorn, Wm. Bennett, Peter Mitchell, B. W. Van Voorhis, and Menzo Diefendorf. The delegates did not occupy much of the morning hours in preparing for the journey, and there was some burrying at the last, especially after the train had started, and several politicians well fattened at the public crib, were compelled to run a lively race down the platform to get aboard.

Abram 8. Hewitt's name yesterday was given more prominence in the conversation than in that of the delegates who departed on Monday. But the feeling was not wholly favorable to him. Some of the delegates, how ever, spoke highly of Mr. Hewitt's recent services to the party and his excellent Congressional record, and thought that he would be nominated, as the signs were pointing to him as Gov. Tilden's candidate, which was equivalent to a nomination. It was suggested that Hewitt and Dorsheimer would make perhaps not the strongest ticket which might be put in the field, but the strongest likely to gain the favor of Gov. Tilden. The Tammany men did not appear very eager yesterday for to think that the position of indifference which he had taken in the canvass for the nomination made his chances small, and they transferred their preference to Clarkson N. Potter. It was asserted that Tammany Hall would vote for Mr. Hewitt if he developed considerable strength; but with Chief-Justice Church out of the queson Mr. Potter would be their first choice. The Tammany delegates asserted that they were going entirely un pledged, and that each delegate would vote independently as his judgment dictated. They were confident that they would have Anti-Tammany at a disadvantage if there should be a quarrel for places in the convention, out they anticipated a friendly settlement.

The waiting-rooms of the New-York Central and Hudson River Railroad were crowded with delegates and their friends soon after 3 o'clock in the afternoon, previous to the starting of the 3:30 Saratoga special train. Ernstus Brooks was at the head of the delegation from Richmond County, and it was reported by his friends that he intended to make an elaborately prepared address to favor of conciliating the discordant elements in the party and bringing about peace and harmony. The other representatives from that county were John Decker, formerly Chief Engineer of the Fire Department in this city, and J. W. McFarland. President Lewis of the Board of Aldermen, who has been Acting Mayor for the past week; Col. Burton N. Harrison, the Mayor's Private Secretary; Frederick mythe, Rufus F. Andrews, Jacob Hatzel, Aldermen Seery and Keenan, ex-Alderman Edward Gilon, and John T. McGowan were prominent among the Democrats on this train. The delegates generally were of the opinion that the nominee for Governor would be agreed upon in essueus during the night, and whatever action the leaders thought expedient would be voted for without serious opposition. Mr. Dorshelmer's nomination was considered impossible, but it was conceded that if his name should not be pressed for the first place on the ticket he would be accorded the second place with universal good feeling. From the conversation of the politicians present it was plain that in their opinion there were only two candidates named who had a chance for the nomination, Mr. Hewitt and Mr. Potter. But the bearing of the delegates was untike the bearing of Democratic politicians on their way to conventions in other years. There were no positive opinions-there was no loud talking as to the result of the ballot in convention. As a delegate put it, "We don't know who will be nominated, or what will be done. We will do as we are told. Gov. Tilden and the leaders will get together to-night, and whatever the Governor finally consents to will be indersed by the convention. With the best man we can put up, it will be a hard fight to beat Gov. Morgan. We can do it if we are united, and every effort will be put forth to-night in aucus to satisfy everybody worth satisfying." A few delegates went to Saratoga last night by way of

the People's Line to Albany, on the steamer Drew. Po-lice Commissioner Sidney P. Nichols, ex-Alderman Richard Flanagan, N. Hill Fowler, and others of Tammany Hall, Oscar H. Bogert, Francis Waters, John H. O'Connor, and William Hall-all Anti-Tammany menand Mark Langan, were on board. A rumor was cur-rent among them that Horatio Seymour had consented to accept the nomination for Governor if it should be pressed upon him.

MYSTERIOUS NIGHT ATTACK ON PLANTERS. NEW-ORLEANS, Aug. 29 .- Col. George W. McCranie of The Quachita Telegraph sends the following to the Associated Press of New-Orleans from Monroe: "This city and vicinity is greatly excited because of the firing into the residences of David Faulk and Isalah Garrett last night, and an attempt to kill Lamy Faulk, on the river below here. Mrs. David Faulk has been dangerously ill for weeks. Her bedroom was the target of the assassins. Mr. Garrett's house received about seventy bullets. Mr. Lamy Faulk saw two men, both colored, enter his gate. They exploded two caps, aiming at him, and went on. Several white fauilles in the vicinity have come to this place for safety, and appeals have been made to the volunteer company here for assistance. It is thought that this trouble is the sequence to a disturbbeen dangerously ill for weeks. Her bedroom was the

Their lives were threatened, and they were compelled to leave the grounds in order to pacify the infuriated blacks, who drew repeaters, and otherwise exhibited the ferceity of desperadoes.

GENERAL CAMPAIGN NEWS.

REPUBLICAN STATE COMMITTEE. B. CORNELL ELECTED CHAIRMAN-ACTIVE WORK

The new Republican State Committee was organized yesterday in Parlor F of the Fifth Avenue Hotel, and Alonzo B. Cornell was unanimously elected Chairman. Ex-Gov. Morgan was present, and his presmee was the signal for the heartiest applause. He did not make a speech. Some significance is attached to the lection of Mr. Cornell, as it had been thought possible that he and his near political friends might be somewhat apathetic in their support of Gov. Morgan's canvass. On the contrary, Mr. Cornell showed the utmost willingness to work, as he had never worked before, to secure the election of Mr. Morgan. John M. Knapp nominated Mr. Cornell in a complimentary speech. No other candidate was put in nomination, and Mr. Cornell was elected by acclamation. There had been a rumor that the chair manship of the State Committee had been promised Mr. Cornell in return for his letter of withdrawal at Saratoga but members of the committee treated the story with contempt and gave it a general denial.

Mr. Cornell showed his genuine intentions, member of the committee said, by urging the utmost diligence, and advising that the Executive Committee should hold a session every day till election time, beginning at 9 clock in the morning.

The meeting lasted two hours, and was called to order by Wm. A. Darling. The following is the State Commit-

Considerable time was consumed in hearing the state ments of members concerning the political feeling in their several districts. The reports were said to be very encouraging. It was believed that the Liberals were in most counties openly in sympathy with the Republicans, and would work and vote for Gov. Morgan. Henry A Glidden and Edward M. Johnson were elected Secre

HAYES AND WHEELER MEETINGS.

The Republicans of the Vth Assembly Disrict in Jersey City met at Siefke's Hall on Monday night and organized a Hayes and Wheeler campaign club by the election of Amadee Spadone, President; Henry Du-senberry, Vice-President; Louis C. Schwerdifeger, Secretary; B. F. Clarke, Treasurer, and an Executive Committee composed of one from each precinct in the dis trict. The Finance Committee consists of D. L. Holden, Alexander Bonnell, Mayor, Charles Seidler, Wm. Frost,

and Joshua Clark.

The Hayes and Wheeler Club of Hoboken raised a large transparency in front of their headquarters yesterday. A Hayes and Wheeler campaign club was formed on Monday evening at Mt. Klaco, Westchester County. Elliot C. Cowdin was elected president and Richard Fish secretary. Mr. Cowdin and the Hon. F. P. Fevo addressed the meeting, and were greeted with enthusiasm. The War Governor's name was cheered very heartily.

At a meeting of the German Hayes and Wheeler Club of the Xth Assembly District—President, J. C. Wieland, Vice-President, Gustave Holbein—at No. 182 Ludlow-st., last evening, Enoch George of Brooklyn made an address upon the record of the Republican party during the past 16 years. He said that it was not a fauitless but nevertheless a brilliant record. The speaker alluded to the bills recently presented to Congress by Democratic members to appropriate \$472,316,133 for Confederate property confiscated during the late war. That, he said, was a feeble foreshadowing of what might be expected at the hands of the Democratiu party if reinstated in power. A number of applicants were received into the membership of the club.

The Republicans of the Twenty-third Ward raised a banner last evening at Central Hall, Morrisania. There was a large attendance of Republican voters from all parts of the district. Speeches were made by W. T. B. Milliken, Silas B. Dutcher, Col. James Tarner, and others. A Hayes and Wheeler campaign club was formed or

From the World's Dispensary Printing Office and Bindery, Bullaio, N. Y., we have received "The People's Common some Medical Advisor, in plan English: or, Medicine Simplified," by R. V. Pi-ree, M. D., Commeiorin-Chief of the Board of Presidents and Surgeons at the World's Dispensary, Whoever helps humanity in its struggle with its inherent weaknesses and Gireaces, to bear or cure, is its benefactor, ignorance is not only of itself a cause of disease and mortality, but it is the enemy of every effort to cure or mitigate. Nothing will so speedily remove this cause as knowledge (an elementary one at least) of the disease to which we are her, as well as those superinduced by our own imprufence. Dr. Pierce has rendered, in our judgment, a benefactor's service, both to the attited and to the profession, in his diagnosis of the diseases treated of, and in the presentation of the philoboth to the afflicted and to the profession, in his diagnosis of the diseases treated of, and in the presentation of the philosophic principles involved in their cause and romoval. He sparing or remodies, and usually proscribes such as are safe in unskilled hands. As a book merely of abstract knowledge, it is exceedingly readable and interesting, especially the following subjects: Cerebral Physiology, Human Temperamenta, Pseudo-Hyglene, the Nursing of the sick, Sleep, Food, Ventilation, etc. In one chapter on another subject, so delicate in its nature that it is shut up beyond the domain of warning to all but physicians, so accursed in its results in modern society, he is most crybidit, and alike true to took to virtue, to life, and to society; ahows the truth as presented in the teachings of scripture—that if the begins with conception—with great force, to which is added faithful warnings.
